

About home electric appliances around the kitchen

Regarding the home electric appliances around the kitchen, please check and pay attention to the following.

■ **Refrigerator** :All rooms are equipped with refrigerators (freezing and refrigeration).

*There is no ice machine in our hotel. If you need ice, please purchase at supermarket, or make it in the freezer.

*Please note that we cannot keep refrigerated or frozen items before check-in and after check-out.

■ **IH stove** :All rooms are equipped with two touch panel IH stoves in all rooms.

*After setting cooking utensils such as frying pans and pots in the predetermined positions, turn on the power and use. The power will not turn on if the cooking utensils are not set on.

*If the KEY mark on the panel is lit, it means that the child lock is on and will not operate. Touch it for a few seconds to unlock it before using it.

*For cooking that generates a lot of smoke, please open the window, and ventilate, and please do not open your entrance door while cooking. Automatic fire equipment (smoke detector) may be activated.

■ **Microwave**:All rooms are equipped with a range with an oven function.

*Do not use for heating cutlery or ingredients that are not compatible with microwave ovens.

Also, please note that using it at a time and temperature that greatly exceeds the cooking guideline may cause a fire or malfunction.

■ **Rice cooker**:All rooms are equipped with electronic rice cookers for 3 go(cup) of rice.

■ **Electric kettle** :All rooms are equipped with electric kettle for 0.8L~1L .

*Use it only for boil water. If you use any other way,it may cause a malfunction.
